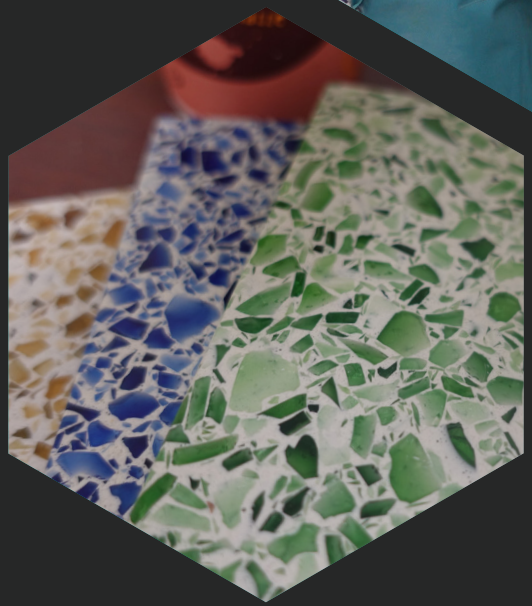
TERRAZZCO® BRAND PRODUCTS | CONCORD TERRAZZO COMPANY

Concord Terrazzo Company offers terrazzo samples at no cost to the architectural and design community.



ENDLESS POSSIBILITIES

Terrazzo consists of marble, glass, granite and/or shell chips mixed together in a resinous matrix binder. Epoxy terrazzo is poured, cured, ground and polished, and is used in various indoor finishes such as floors, stairs, countertops and walls. One of the advantages of epoxy terrazzo is its unlimited range of colors. Terrazzo's design flexibility allows for artistic creations, and maintains good color uniformity on large installation projects.

In addition to a wide range of colors to choose from, there is also a great selection of aggregates. Aggregates vary in size which creates even more unique design combinations. Marble chips are a traditional source of aggregate; however, with the increasing interest of green construction, recycled aggregates like glass are a favorable option. Glass offers vibrant colors, adding brilliance to any terrazzo surface. Crushed mirror can add reflectiveness to a design as well.

There are infinite designs combinations you can create with epoxy terrazzo. Concord Terrazzo Company representatives collaborate with building owners and architects in creating custom terrazzo mix designs.

WHY CHOOSE TERRAZZCO?

- Concord Terrazzo Company is a true single-source terrazzo supplier, the only terrazzo manufacturer where you can design terrazzo floors and precast terrazzo products with materials from one location.

- We pride ourselves in delivering a quality green terrazzo finish. All TERRAZZCO epoxy resins are GREENGUARD Gold certified tested and proven to have zero VOCs. In addition, Concord Terrazzo Company has a in-house recycling facility where we crush and package exclusive post-industrial aggregates.

- Concord Terrazzo Company offers more design capabilities than other terrazzo manufacturers. From waterjet cutting and logos designs, precast manufacturing, sample matching, and exclusive lead source of aggregate options, we help bring your vision to life.

ABOUT TERRAZZCO SAMPLES

Concord Terrazzo Company specializes in epoxy terrazzo systems for institutional, commercial and industrial projects. We love helping architects and interior designers bring their visions to life with their designs. As a result, Concord Terrazzo Company offers design consultation, custom mix design development, and budget and technical assistance at no cost to the architectural and design community.

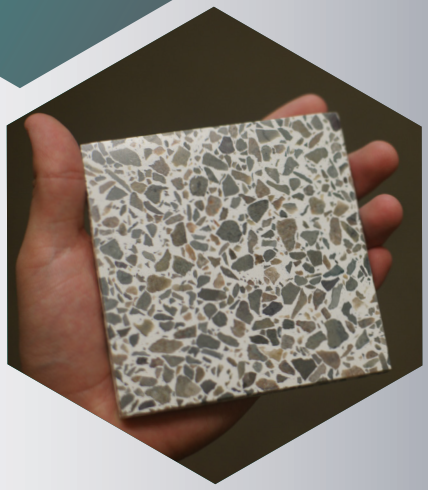
The Concord Terrazzo color palette will help you become familiar with our sample series. The following are the collections we currently offer:

Standard Architectural Hard Sample Collection
Semi-Exotic Architectural Hard Sample Collection
Exotic Architectural Hard Sample Collection
Designer Series
Monochrome Series
Aggregate Series

YOU DREAM.
WE CREATE.

Our sample development is not limited to these colors. For custom samples, contact a Concord Terrazzo Company representative.

All terrazzo samples from the TERRAZZCO sample collections are made-to-order at 3/8" thickness and 6"x 6" dimensions. Our design team handles samples with great quality and care, with a quick turnaround time of two weeks or less.



CREATE A CUSTOM DESIGN

Architects and designers have the option of creating a custom terrazzo sample that aligns more closely to their desired aesthetic. Architects can combine any number of TERRAZZCO marble, glass, and shell aggregate with virtually any epoxy color making the options limitless. Try experimenting with different aggregate sizes from micro to venetian styles or reviewing samples under different polish levels. Share your design specifications with our Concord Terrazzo Company representatives who will assist in developing terrazzo mix designs bringing your visions to life while being within budget. Contact us to start designing a one-of-a-kind flooring system.

DESIGN AND BUILD WITH TERRAZZO

Concord Terrazzo Company works closely with architects, interior designers and design-build firms in delivering a quality terrazzo finish. Our single-source positioning encourages innovation and collaboration amongst architects and building owners and helps them in saving time and money.

We provide great value to architectural projects through design flexibility. Flexibility starts with architects selecting and reviewing samples, and converting those designs into high-quality terrazzo finishes. Concord Terrazzo Company has the ability to supply all the materials to install an epoxy terrazzo floor, and can manufacture precast terrazzo units including stair treads, countertops, and wall base. Concord Terrazzo Company's waterjet service adds additional customization options for projects as architects can explore artistic creations with detailed patterns, logos or creative artwork.

With all materials housed in one central location, Concord Terrazzo Company has the ability to effectively fast-track projects and supply epoxy, aggregates and other materials at budget-friendly pricing. Our single-source structure is designed for value, performance and sustainability.

BENEFITS OF A DESIGN/BUILD PROJECT WITH TERRAZZCO BRAND PRODUCTS

Our Single-Source Supply Supports:

Enhanced Quality and Control
Customization of Products
Faster Project Completion
Reduced Costs

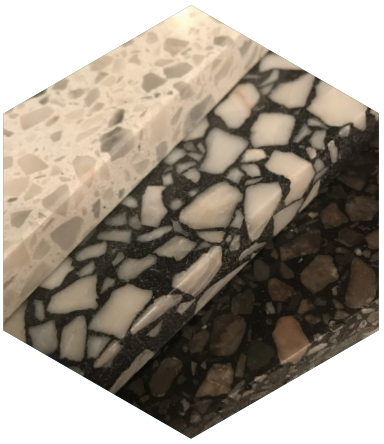
START DESIGNING



Terrazzo is the most versatile flooring finishes on the market with an unlimited color palette. Concord Terrazzo Company design professionals would be happy to partner with you on your next project.

WHO WE SERVICE

Samples are free of charge for the architectural and design community.

For non-architectural and design community members, please contact Concord Terrazzo Company for pricing and shipping costs.

HOW SAMPLES ARE MADE

Samples are made-to-order at 6"x6". If none of the terrazzo samples from our collection meet your design needs, our Concord Terrazzo Company representatives can assist you in designing a custom sample. We can match samples with any desired selection of aggregates with an epoxy resin that matches any major paint manufacturer's color. Architects and designers can design a custom sample that varies in chip sizes: micro, standard, and venetian, and other customization options including polish and gloss levels..

HOW TO ORDER

Know what you want? Start an order by completing our sample request form on the TERRAZZCO website or contact us directly at inquiry@terrazzco.com or (704) 921-4928.
